NEARING THE FINAL.

Argument Begun in the Dreyfus Trial at Rennes.

DELAY OF DECISION.

Demange Speaks for Several Hours and Court Adjourns With His Speech Yet Unfinished—Labori May Not Speak at All.

Rennes, Sept. 8.—The hall of the Lycee was crowded this morning at the opening of the trial by courtmartial of Captain Dreyfus, charged with treason. There was a large attendance of ladies and newspaper writers, who sat up all night in order to secure front places. At an early hour a long line was formed of people awaiting admission. Standing room in the back of the court now commands 15 and 20 francs for places, and the demand increases as the trial approaches its end.

Among the privileged witnesses was Baron Russell of Killowen, lord chief justice of England, who was conducted to a seat by General Chamois and M. Palologue, of the French foreign office. The lord chief justice was seated at the back of the judges' table. Maitre Demange at once opened with a speech for the defense. In eloquent terms and impressive delivery brought out strong evidence against Esterhazy.

Dreyfus appeared cheerful. He smiled and shook hands with his counsel on entering court.

The English chief justice followed the speech of M. Demange with the closest attention. The lawyer gave a very fine performance so far as the audience was concerned. His voice was exquisitely modulated, sometimes soft and persuasive and at other times sharply argumentative. Finally, he filled the room with stentorian tones as thunder, with indignation at the charges against Dreyfus and the shameful weakness of the prosecution and a denunciation of Esterhazy. The gestures and features of M. Demange were equally expressive.

The front row of the chief witnesses seats, were empty except for the presence of M. Trarieux, former minister of justice, and M. Cavagniac, former minister of war, all the generals and officers having left Rennes by order of the minister of war, General de Gallifet. Colonel Picquart has also left Rennes, although he holds no rank in the army. At 11 o'clock M. Demange was still speaking and announced that he needed another two hours and a half to finish his plea, so court adjourned until 7.30 tomorrow morning.

The fact that Maitre Labori has to speak and probably government commissary, Major Carrier, will reply makes it practically certain that a verdict will not be given before Monday.

There was a rumor afloat at the adjournment of court that M. Labori had decided not to speak, the idea being his abstention from so doing in view of the irritating effect the utterance of his speech has on the court, would be rather disadvantageous than otherwise to Dreyfus. M. Labori when asked if there was any truth in the report and replied with a shrug of the shoulders apparently conveying the impression that the matter was under consideration.

A SAD SIGHT.

Farmer Goes Insane and Digs up His Wife's Skeleton.

Joplin, Mo., Sept. 8.—A sensational story reached here from Osgood, a village 30 miles northeast of Joplin, of a heartbroken husband digging up the remains of his wife after they had lain in the grave six months and fondling and caressing the skeleton with all the ardor of a passionate lover.

George Hendrickson, a young farmer, lost his wife six months ago, shortly after their marriage. He was heartbroken and could not become reconciled to his loss. Finally, he went crazy, but no one suspected his condition until last Sunday night when he went to his wife's grave, dug up the remains of his dead wife and was found late at night sitting on the grave holding them lovingly on his lap.

When these in search of Hendrickson approached, he fled, carrying the corpse affectionately in his arms. When overtaken he fought violently for the skeleton of his wife and had to be bound before he could be controlled.

He recently refurbished his house, saying his wife was coming back to live with him again. He does not seem to realize that she is dead and his reason has been completely destroyed by grief.

Stove Foundry Burned.

Louisville, Sept. 8.—Fire destroyed the stove foundry of Bridgeford & Co., causing a loss of \$200,000. Insurance about \$100,000. While going to the fire the salvage truck overturned and Sam Reese, a fireman, was fatally injured. The Phoenix Tanning company, situated in another part of the city, was also totally destroyed by fire owing to lack of engines. Loss \$50,000; fully insured. John Zehnder, a spectator, was caught under a falling wall, his skull crushed and he will die.

Lumberman Badly Hurt.

Texarkana, Tex., Sept. 8.—E. R. McGoughy, a lumberman of this city, was seriously hurt at this place, while dismantling a float that was used in the trades parade on labor day.

A CATTLE SWINDLE.

Five Livestock Firms at Kansas City Caught for Many Dollars.

Kansas City, Sept. 8.—The Journal states that within a few weeks past upwards of \$90,000 have been taken from five live stock firms in Kansas City by a band of swindlers, seven men and two women, who have operated from various points in Iowa, Nebraska, Kansas and Missouri.

The swindlers secured their first money when a man appeared here from Iowa stating that he had a herd of 1800 feeders in Iowa, but had not money enough to get the cattle in shape for the market. The commission firm to which he appealed for financial assistance sent a man to Iowa to inspect the herd and loaned the man \$5000, taking a first mortgage.

A few days later a woman in widows weeds, appeared at the offices of another commission firm and secured a similar amount on similar representations. The herd of feeders was rapidly moved through several counties in Kansas and finally into Missouri and repeatedly mortgaged, and it is stated that one commission firm was caught twice on the same bunch of cattle. The Journal withholds the names of the firms. There has been no arrests.

Large Attendance.

Pittsburg, Sept. 8.—Fully 20,000 people attended the opening of the eleventh annual season of the Western Pennsylvania Exposition society Wednesday night. This is the largest attendance in the history of the society.

While the exhibits are unusually attractive, covering all the principal industries and business, the particular attraction was Sousa and his famous band. Sousa has always been a great favorite in Pittsburg and his reception was exceptionally enthusiastic. The exposition management expect this season to break all records for attendance and excellence of the exhibits.

Parisian Architect Won.

San Francisco, Sept. 8.—A jury composed of American and foreign architects has awarded M. Benard, the Parisian architect, the first prize in the competition sponsored by Mrs. Phoebe Hearst, for the best plans for new buildings for the University of California. The ultimate cost of the improvement will be between \$10,000,000 and \$15,000,000. Mrs. Hearst will defray all expenses of the proposed addition to the university. M. Benard will receive a premium of \$10,000 for his plans in addition to the customary architect's fees for superintending of the construction of the buildings, this emolument amounting in the aggregate to a handsome fortune.

Boers May Push Fighting.

London, Sept. 8.—The correspondent of The Times at New Castle, Natal, says there would be little surprise there if the Boers assumed the aggressive immediately. It is a matter of astonishment that so few British troops are in the country, especially on the western border.

Inquiry Transmitted.

Pretoria, Sept. 8.—At the desire of The Transvaal government there has been transmitted through Conyngham Green, the British diplomatic agent here to Sir Alfred Milner, British high commissioner of South Africa, an inquiry as to whether an explanation should be given in regard to the mobilization of the British troops on The Transvaal frontier.

Three Boys Killed by Cars.

Kahoka, Mo., Sept. 8.—Wilby Bash, 19 years old, Wesley Bash, 17, and Roy Bash, 9, drove from the home of their father, George Bash, near Wayland, Mo., to Alexandria, Mo., with a wagon load of cucumbers. While crossing the railroad tracks near the Bott cooperage works, their wagon was struck by the Keokuk and Western westbound passenger train. The oldest boy was killed instantly. Wesley died in a few moments. Roy came out from under the wreck of the wagon and was able to walk to a hotel near the scene of the accident, but he died as a result of a badly punctured skull.

Better Marketing of Cotton.

Atlanta, Sept. 8.—James Barrett, representing the committee of the State Agricultural association of Georgia, having for the purpose the development of a plan for the better marketing of the cotton crop, has called a convention of allied cotton interests for Oct. 25 at Atlanta.

Killed in a Street Duel.

Ponca City, O. T., Sept. 8.—D. Jamison and James Arnold of Tonkawa shot and killed each other in a street duel here as the result of a quarrel. Jamison was a gambler and saloon man and Arnold a hotel proprietor.

SATURDAY, SEPTEMBER 9, 1899.

It is not unlawful for a woman to put off on man a glass eye. A court has recently held in so many words that "it is not necessary for a woman during courtship, to inform her intended husband of any device or attachment to improve the work of nature in the construction of her face, form or figure." This was apropos of a charge of deception by wearing glasses to conceal a glass eye.—Ex.

The Arkansas Gazette considers the report of the treasury department in regard to cotton and cotton manufacturers highly gratifying to the Southern people. During the last fiscal year the Southern states exported 7,373,382 bales of cotton while the entire country exported 412,000,000 yards of cotton cloth. Since a bale of cotton represents about 2,500 yards of cotton cloth it will be seen that in the shape of raw cotton the South sent to foreign countries about 18,500,000 yards of cloth. With these figures in view it can be easily seen what are the possibilities of cotton manufacturing in the South. The export value of the cloth was \$19,000,000 and that of the raw cotton \$220,000,000. The export value of the cloth was 4.6 cents a yard. The 7,373,000 bales of cotton exported in the shape of cloth, on the same basis, would represent an export value of \$840,000,000, or just four times the value of the raw cotton.

A Priest for Congressman.

Rev. Father George D. Heldmann, a Catholic priest of Chicago, who has been talked of as a candidate for congress, and is being urged by friends to make the run, says he sees no reason why he should not do so if it seems to be the earnest wish of a majority of his people. Rev. Father Heldmann's parishioners are most of them Germans, and they hold him in high esteem. If he should become a candidate, it will not be as a reformer, he declares, but as a representative of all the people to give them what they have been asking for.

New Business in Hamlet.

Sarah Bernhardt has invented some novel "business" for her acting of Hamlet. In the scene where she instructs the players she adopts her real manner with her own company. She conceals her face behind Ophelia's hair as she caresses it, and at the end, seizing a torch, holds it to the king's face to study its expression. She claims originality, never having seen Booth or Irving in the part.

Good Customers.

Horse Dealer—"Yes sir; we sell most of our horses through the matrimonial advertisements."

Friend—"How is that?"

Horse Dealer—"Why, when we see a fellow advertising for a wife we know he's a good thing to stick on a horse!"—From Puck.

NO NEW CASES.

Those at Mississippi City Are Local and No Spread Is Apprehended.

New Orleans, Sept. 8.—No new developments in the fever situation here. The one case reported Thursday is of a mild character and doing well.

Dr. Horton of the Louisiana board of health, Gant of the Mississippi state board and Murray of the United States marine hospital service, spent Thursday at Mississippi City, on the gulf coast, where 12 suspicious cases were reported, have returned to New Orleans and say no symptoms in the cases justify apprehension of fever otherwise than local. The cases are confined to one family and adjoining houses.

Texas and Alabama still hold on to quarantine, but Mississippi refuses to put on the slightest embargo.

Contradictory Reports.

Austin, Sept. 8.—Reports from Sonchon, at New Orleans, states that one more case of yellow fever has developed there. The health department is also in receipt of a letter from a citizen of Algiers, stating that there are 10 cases of yellow fever there and fully that many across the river in New Orleans, but every effort is being made to suppress the facts.

Another Case at New Orleans.

New Orleans, Sept. 8.—The board of health has announced a mild case of yellow fever at 1402 Polymnia street, making the third this season. It is isolated, and the state and city board of health and visiting experts, agreed that there was no justification for any quarantine. Seventy-five physicians voluntarily reported that there was no suspicious cases in their practice.

Suspicious Cases.

Mobile, Sept. 8.—Mobile has quarantined against Mississippi City, Miss., a town on the Louisville and Nashville railroad, 70 miles out from New Orleans, because of a number of suspicious cases of fever in a boardinghouse there. Dr. W. H. Sanders, state health officer for Alabama, has visited the place and examined the sick. He says he cannot say yet that the disease is yellow fever.

NO CHARGES FILED.

Dr. Bedloe Not Accused of Accepting Bribes as to Chinamen.

Washington, Sept. 8.—Third Assistant Secretary of State Cridler says that there are no charges before the department affecting the integrity of Dr. Edward Bedloe, consul at Canton, China. It is, therefore assumed that there is no truth in the reports that Dr. Bedloe has been accused of accepting bribes for obtaining concessions or for passing Chinese into America. The only charges against Consul Bedloe relate to the granting of American registry to a vessel which conveyed arms to the Filipinos. Consul Bedloe's claim is that when the papers were issued there was no prospect of war with the Filipinos, and they were in fact our allies in the war against Spain. It was only a month after the battle of Manila bay and long before the land battle of Manila. The vessel was the Abbey, which was captured by Admiral Dewey. This claim, however, can hardly be recognized by the administration, for to do so would be to admit that the Filipinos were at that time our allies. At the same time the question will have to be passed upon.

It is generally believed that the removal of Dr. Bedloe will be recommended by Secretary Day. The power of removing him is vested in the president.

A Priest Married.

St. Louis, Sept. 8.—There are sensational developments here in connection with a secret marriage that took place at Clayton, Mo., Tuesday, Aug. 29. The wedding was a very secret one. Every precaution was taken to prevent even the record of the marriage license being published. The contracting parties were Charles Brady and Miss Addie Gwynn. They came here from Quincy, Ills., and after taking every precaution for privacy, were married in the parlor of Hotel Autenrieth, at Clayton, Justice Greensfelder performing the ceremony. Charles Brady, it developed, is really Rev. Father Brady, for the last month in charge of a Catholic church at Liberty, Mo., formerly of Quincy, Jerseyville and Decatur, Ills., in each of which cities he had charge of parishes. Father Brady was seen and confirmed the story. He says "My act excommunicates me." He sent a letter to Bishop Ryan at Alton, resigning his charge at Liberty.

Child Killed and Mother Hurt.

Independence, Kas., Sept. 8.—As Peter Klintworth was returning to his home, about 6 miles northwest of here, with his wife and four children in his wagon, the wagon was overturned, and the youngest child, aged 2 years, was crushed to death and the mother seriously injured. The wagon road runs under the Missouri Pacific bridge across Elk river, and workmen in repairing the bridge had thrown up a big pile of dirt which caused the wagon to turn over.

The Jury Failed to Agree.

Darien, Ga., Sept. 8.—The jury in the case of the state against Henry Delagall, charged with assault on a white woman and whose arrest caused the recent serious disturbances between the whites and blacks in this county, resulted in a mistrial. The jury could not agree.

More Smallpox Cases.

Austin, Sept. 8.—The state health department has received information that smallpox has developed in Houston and Galveston, but every effort will be made to suppress the disease at once.

Brakeman Crushed to Death.

Vincennes, Ind., Sept. 8.—Charles Williamson, a brakeman on the Baltimore and Ohio railroad, fell while making a coupling and was horribly crushed. Death resulted.

Death of William Ward.

William Ward died in this city
yesterday morning at 7:45 o'clock,
at the home of Mr. Lee Mike, after
an illness of several days. His

death was a shock to the commu-
nity, for although it was known he
was seriously ill, he was a young
man of such unusual strength

his friends thought he would
recover.

He became ill at Mudville, where
he was employed, and where, dur-
ing the recent flood, he worked un-
ceasingly and heroically in saving

lives and property, and exposed
himself without regard to his own
health or safety.

William Ward, or Bill, as he
was known by everybody, was born
and raised in Bryan, and was 21

years of age last February. He
enjoyed to the fullest extent the
confidence and esteem of the peo-
ple of Bryan, and the sorrow at his

untimely death is widespread. He
was generous, courteous, courage-
ous and industrious. The night

was never too dark nor the way too
long for him to respond to the de-
mand of duty or serve a friend in
need. The world is much in need

of such men as he was and can ill
afford to lose them.

He leaves a brother, Mr. Paschal
Ward, and other relatives in this
city, and two sisters in San An-
tonio.

The funeral will take place
from the residence of Mr. Lee Mike
this morning at 9:30 o'clock.

Resolutions of Respect.

Since God in his inscrutable provi-
dence has seen fit to take from our
midst our worthy brother and fellow
workman, W. J. Pico, and while we

subscribe to the belief that God in his
omnipotence always acts in infinite
mercy, and while we are comforted with
the thought that our loss in the death of

our worthy brother, is his eternal gain,
still in the weakness of our nature we
bow down in sadness to this eternal de-
creed; Therefore be it

Resolved, That in the death of our
worthy brother that this lodge has lost
a member who was always faithful and
true; the community has lost a citizen
who was a useful man; the family has
lost a husband and father who was lov-
ing and kind.

Resolved, That a copy of these reso-
lutions be recorded in the minutes of
this lodge, a copy be furnished the
county papers for publication, and that
a copy be furnished the bereaved fami-
ly who shall always have a sympathiz-
ing friend in each member of the lodge.

A. W. Buchanan,
W. J. Christian,
W. B. Roman,
Committee.

The citizens of Hamilton county
held a meeting on the 25th ult.,
and organized to devise ways and
means to erect a cotton mill plant
in the town of Hamilton. They
have started in the right direction
and success seems certain.

Pillsbury's Helpful Cigar.

Pillsbury, the chess champion
of New York, played blindfolded
against six opponents at chess,
two at checkers, and at the same

time took a hand at whist the
other night. He won all the
games at chess and checkers.

The first rubber of whist went
against him and the second was
not finished. Pillsbury was puff-
ing away at a big cigar when I

interviewed him. "No," said he,
"I don't find smoking interfering
with my play. Some folks say

it takes the sharp edge from one's
intellect, and spoils one's mem-
ory. I haven't found it so. I've

smoked since I was 14, and I can
play better when I have a cigar
in my mouth—only a cigar, never

anything else. When I play a
lot of games at the same times,
I must be keyed up to it, as it

were. I practice what you call
self-hypnotism. It is largely will
power. You see it's just this way.

When it becomes my turn to
make a move at one of the chess
boards, my mental powers are

concentrated severely upon the
one move. All the other chess-
boards, the checkers and whist

are entirely obliterated from my
mind. It's as though I had never
started playing those other games

at all. I seem to remember noth-
ing of them. I come to a deci-
sion, the move is made, and I turn

again to the cards in my hand.
Quick as lightning the game of
chess vanishes from my mind.

Now it is nothing but whist with
me. I seem never to have had a
thought of anything but the

cards. I play one. Then I move
one of the checkers. These trans-
itions of mind take place so

quickly that I seem to be playing
chess, checkers and whist all at
once, and to be thinking of all

the games at once. But it is as
I explained. The only thing I
really need for the ordeal is my

cigar.—Washington Post.

From Maine to Arizona.

One of the girls in the mills at
Waterville, Me., several months
ago, wrote her name and address
on a piece of cotton. The other

day she received a letter from a
lady in Arizona, who said the
cloth had been purchased by Uncle

Sam and was being cut up for gar-
ments in a school for the Apache
Indians there. It was but a few

years ago that the Apaches, the
most cruel and fiendish tribe of
North American Indians, were

taking scalps instead of making
shirts.

Lifting Power of Growing Plants.
The lifting power of a growing
plant is one of the most astonish-
ing things in nature. Beans and

acorns often lift heavy masses of
earth in their struggles to reach
the light. Mushrooms have dis-
placed flagging stones in a num-
ber of instances.

LADIES!

The modern grocery store has reached that stage in its develop-
ment that makes it the dispensary of an innumerable variety of
highly palatable and wholesome dishes ready for the table, thus
relieving you of much of the heat of the kitchen and of hastily
or improperly prepared food. We cordially invite your atten-
tion to our selection of these articles, and believe we can great-
ly aid you with your "menu" and save you trouble and money.

THE BOERS ARE READY

Massing Along The Transvaal Border to Keep British Out.

THE BRITISH ALERT.

Queen's Soldiers Gathering to Keep the Transvaal Troops From Making a Raid—Boers Position Interpreted as Defiant.

London, Sept. 8.—The Transvaal situation is worse. The Boer request for an explanation as to the massing of British troops on the frontier of The Transvaal, has an ominous note of irritation and impatience, which at such a critical stage, can scarcely be interpreted as anything but a defiance. Both here and in Cape Colony the tension and armistice continue. Whether today's cabinet council will afford immediate relief, is still a question of great doubt. The more conservative believe that the cabinet will only put a time limit upon the negotiations and that the interim will merely be a repetition of anxious times which have marked the past few weeks.

Cape Town advises say the Afrikaners regard the latest Boer reply as evasive, while the others regard it as designed to entangle the two governments in further negotiations. The average opinion of the British press is inclined to regard it as the straw which would break the back of the most long suffering diplomatic camel.

The second edition of the Morning Post contains a special dispatch from Pietermaritzburg, capital of Natal, saying that an ultimatum would be forwarded to the Boers. The same correspondent adds that the Boers have received or will receive a dispatch from Sir Alfred Milner, the governor of Cape Colony, and British high commissioner of South Africa, demanding the release of Mr. Pakeman, the editor of the Transvaal Leader, who was arrested Sept. 2 on the charge of high treason.

Continuing, the correspondent says 800 Boers have left Pretoria for Standerton and declares that the Pietermaritzburg troops are ready to march at two hours' notice.

INTENSE FEELING.

The Rand Debate Causes Considerable Interest at Cape Town.

Cape Town, Sept. 8.—The reports of the raid debate at Pretoria published here, created intense feeling, and the disparaging reference to Mr. Joseph Chamberlain, imperial secretary of state for the colonies, and Sir Alfred Milner, governor of Cape Colony and British high commissioner in South Africa, are resented. The feeling displayed by members of the raid surprised those who believed that a peaceful solution would be reached, and such a solution, in the opinion of many, has been rendered very difficult.

In spite of a downfall of rain, 1500 workmen assembled Thursday night and passed a resolution imploring a prompt termination by the imperial government of the present tension, which is "causing grave distress, bringing the community face to face with bankruptcy, alienating the moderate element here and in The Transvaal, and sapping British prestige."

The resolution also affirms unabated confidence in Sir Alfred Milner. The meeting which was orderly, closed with cheers for Chamberlain, Milner and Rhodes and with groans for Ruger and Schreiner.

THE CABINET MEETING.

Members Leave With Smiles, Which Indicates No Seriousness.

London, Sept. 8.—A large crowd of people gave the cabinet an enthusiastic reception when it assembled this morning. The council concluded at 3 p. m. A reporter of the Associated Press asked the president of the board of agriculture, Rt. Hon. Walter Long, if any conclusion had been reached. He replied that all he could say is we must have patience. The meeting demands more attention than any for years.

The ministers came out arm in arm, laughing and chatting, greatly contrasting with the manner in which they went in. Salisbury received an ovation. Although the foreign office has not given out a statement, the general impression is an ultimatum will be sent to The Transvaal at present and a time limit will be placed for a conference at Cape Town.

The short duration of the council and the early departure of the militarymen summoned, indicate the situation more pacific, though of course, this is only a surmise.

Fear the Dutch.

London, Sept. 8.—The Times in its second edition publishes a dispatch from Mafeking, which said Colonel Baden Powell would review troops at Ramothlabama and that a large number of Boers were moving about the border near there. There is uneasiness over the number of The Transvaal Dutch here. It is feared they might join the invaders in case of a raid.

Troops Ordered to Leave.

Bombay, Sept. 8.—The Nineteenth huzzars and the Twenty-first field battery of artillery have been ordered to leave Zunderabad for The Transvaal on Sept. 18.

CHANGE OF VENUE.

Humphries' Lynchers Will Go to Anderson County for Trial.

Athens, Tex., Sept. 8.—Judge Lipscomb announced that on his own motion the court ordered a change of venue of the parties indicted by the Henderson county grand jury for the murder of the three Humphries to Anderson county, in the case of all the parties except John Greenshaw and Polk Weeks.

He further ordered all the prisoners in this case except the two latter named carried to the Dallas county jail and kept until the November term of the Anderson county court.

Counsel for the defense, including Col. Russell of Dallas, made a strong fight to have the case go to Dallas county, but Judge Lipscomb preferred not to move the cases out of his own district and sent them to Palestine.

Bentheim Statements Denied.

Coburg, Sept. 8.—A semi-official agency declares that the statement recently made by Charles E. Bentheim at Atlanta, Ga., to the effect that Alvy Florschuetz, when United States consul at Sonneberg, used the seals, letter heads and etc., of the consulate for years before the Dreyfus case came up, for the transmission to the German war office of French military secrets, is pure invention. It is also said that Bentheim was never employed in the office of the general staff of Germany as he has claimed.

Pennsylvania Populists.

Philadelphia, Sept. 8.—The state convention of the People's party met here and nominated Andrew Storey for state treasurer. The platform endorses Wharton Barker of Pennsylvania and Ignatius Donnelly of Minnesota for president and vice president, and calls for the issuance of paper money irredeemable in coin and also demands the nationalization of railroads, which latter question it says involves the trust question. The war in the Philippines is condemned.

An Outbreak Feared.

Fort Smith, Ark., Sept. 8.—There is fear of an outbreak by the striking miners at Huntington and a large number of deputy marshals have been sent there. Within the past few days the Kansas and Texas Coal company has imported about 500 nonunion men, which seems to have enraged the strikers, who until the late arrivals had hoped to win by endurance.

Killed at a Sham Battle.

Columbus, O., Sept. 8.—During the sham battle in the Paine spectacle, "The battle of San Juan," at the State Fair grounds here, Charles Krag, aged 10, a spectator, was killed. Revitta Smithson, private company F, Fourth Ohio, engaged in the sham battle, was fatally wounded and Max Guggenheim, a merchant, also a spectator, was seriously wounded.

Ranjitsinhji's Team.

London, Sept. 8.—Prince Ranjitsinhji, the famous Indian cricket player, has almost completed his arrangements for his American trip, and the team will sail on the White Star steamer Majestic on Sept. 13, returning to England in October. The team includes A. C. MacLaren, C. L. Townsend, C. P. Fry, A. O. Jones, G. Brann and A. Priestly.

Provisions for Porto Ricans.

Baltimore, Sept. 8.—The transport Wright, loaded with relief of food and clothing, contributed by Baltimore and Washington residents for the hurricane sufferers of Porto Rico, sailed for San Juan, Captain Prout, commander of the ship, expecting to arrive at Porto Rico next Tuesday. The donation amounts to 500 tons.

Wreck on the Santa Fe.

Bellville, Tex., Sept. 8.—A double-header on the Gulf, Colorado and Santa Fe road was wrecked four miles north of Bellville. One engine and 14 cars were ditched. Engineer Shears and Fireman Allen Campbell were caught under the cab and badly injured.

Pier Shed Destroyed.

New York, Sept. 8.—Fire here destroyed a pier shed, 500 feet in length, and the steam barge Rahway, owned by the Pennsylvania railroad. Loss \$100,000. Several smaller boats were also damaged. Three watchmen were badly burned.

Detroit Goes to Venezuela.

Philadelphia, Sept. 8.—The cruiser Detroit, ordered to La Guayra Venezuela on account of the disturbances in that country, has left this city. The Detroit is expected to reach La Guayra in a week.

Place for Bruce's Widow.

Tuskegee, Ala., Sept. 8.—The widow of the late United States Senator Bruce, colored, of Mississippi, has accepted the position of lady principal of the Tuskegee Normal and Industrial institute at Tuskegee.

Stewart Castle Sold.

Washington, Sept. 8.—Stewart Castle, the old home of Senator Stewart of Nevada, the scene of so many sumptuous entertainments, was sold by the Senator and Mrs. Stewart to Senator Clark of Montana.

Grand Stand Lightning Struck.

Tuscola, Ill., Sept. 8.—At the Douglas county fair at Camargo lightning struck the north of the grand stand, killing two men instantly, fatally injuring two more and seriously disabling six others.

Kansas Jointist Sentenced.

Larned, Sept. 8.—George Brothers, a Larned jointist, was convicted on three counts of violating the prohibitory law and sentenced to three months in jail and to pay a fine of \$300. The case will be appealed to the supreme court.

THE COTTON CROP.

The Commercial and Financial Chronicle Places the Yield at 11,285,888.

New York, Sept. 8.—The statistics of the cotton crop for the year ending Sept. 1, as compiled by the Commercial and Financial Chronicle, shows a total crop of 11,285,888 bales against 11,180,960 bales in 1898, and 8,714,011 bales in 1897. Exports were 7,362,788 bales, while the northern and southern mills took 3,647,117 bales, leaving a stock on hand at the close of the cotton year of 392,297 bales. Regarding the cotton milling industry in the south, The Chronicle says:

Growth during the time of business depression has been marvelous and it is still at the full tide of development. We notice likewise that there has been no interruption in the declination to size of the mills, that is to build larger factories and to augment the capacity of the old ones. The number of spindles per mill reaches 9260, against 9153 a year ago and only 6751 in 1893-94, or an increase of nearly 40 per cent in the average capacity in five years. The amount of cotton gathered in the year averaged for the whole country the largest number of pounds per acre ever raised. The total yield for the whole country shows 240 pounds to the acre against 237 pounds in 1893 and 234 pounds in 1895. The production of cotton in the three years named was the largest ever raised in the aggregate yield.

Regarding the demand for cotton goods The Chronicle says:

"During the last 12 months the demand for cotton goods by the country has become more nearly normal than it has been in any one of the previous six or more years. Consumption during these months has increased to such an extent as to more than absorb the product of all the country's spindles and thereby for the time being to hold in abeyance the question of difference in the cost of manufacture between the north and south. Moreover, conditions give promise of a further expansion in the demand so that for the season beginning with Sept. 1 consumption bids fair to assume larger proportions than it has ever before reached."

Coffee Reached the Lowest.

New York, Sept. 8.—The lowest price on record for "future" coffee was reached Thursday when coffee deliverable in October sold on the New York Coffee exchange at 4.40 cents. The previous low price was 4.55 cents in June for coffee deliverable in July. The high price in 17 years was 22.25 cents in June, 1887, for coffee deliverable in the following December. The cash price for Brazilian coffee Thursday was the lowest on record, being 5 1/2 cents or 1 cent below any previous figure. The low prices current are due to the enormous world's supply and the expectation that the new crop will reach 11,000,000 bags. The increase in the world's supply in August was 890,000 bags, the largest increase ever reported for a single month.

Going to the Polls Armed.

Louisville, Sept. 8.—Information has come to the ears of the local Republican managers that the police are to be again used at the polls for the purpose of intimidation this fall. Plans are now being quietly arranged to meet force with force. In every precinct in the city committees are being appointed, all the members of which are pledged to go to the polls and resist, forcibly if necessary, any attempt of the police to prevent an honest election. These men will go armed and will remain in a body together, so that the police will not be able to frighten them and cause them to disperse. The weapons will not be concealed, and consequently there will be no statutory offense in carrying them.

Illiot Still Captured.

Cartersville, Ga., Sept. 8.—What is supposed to be the largest copper still in north Georgia was captured by Deputy Collector Barlow Carter in Cherokee county, near Sutall. The still has a capacity of 150 gallons, and is the one, it is said, which a young man by the name of Lowery was killed about some months ago. Lowery, according to the various reports, had reported the whereabouts of the still, and was shortly afterwards killed by unknown parties. The copper, it appears, had been captured once before, but was stolen and the officers have been looking for it for nearly three years.

Will Give a Royal Welcome.

Calvert, Tex., Sept. 8.—Elaborate preparations are being made for the reception of the first train over the Calvert, Waco and Brazos Valley road, which is expected the early part of next week. Mr. C. W. Gordon of the Calvert Chronicle, with the assistance of several others, is preparing a barbecue and dinner to be served on the platform adjoining the new depot.

George Arry Captured.

Carbondale, Ill., Sept. 8.—A brakeman on the Illinois Central captured George Arry at Makanda Ills. He had on his person over \$1400 in cash and 16 gold watches. It was while attempting to dispose of one of the watches that his identity became known. He is supposed to be a criminal wanted in Alabama for highway robbery.

Will Go to the Philippines.

Washington, Sept. 8.—After eight hours of almost constant discussion among the president, Secretary Root, Prof. Schurman, Senator Beveridge, General Miles and Adjutant General Corbin, it may be stated positively that General Merritt will go to the Philippines.

Rear Admiral Picked Dead.

Boston, Sept. 8.—Rear Admiral Picken, commandant of the navy yard here, died of apoplexy. He was 59 years old.
